OR

- 18 a) Make a précis of the following passage and suggest a suitable title. 5M

Machines have, in fact, become the salves of modern life. They do more and more work that human beings do not want to do themselves. Think for a moment of the extent to which machines do work for you. You wake, perhaps, to the hoot of a siren by a machine in a neighboring factory. You wash in water brought to you by the aid of machinery, heated by machinery and placed in basins for your convenience by a machine. You eat your breakfast quickly cooked for you by machinery, go to school in machines made for saving leg labour. And if you are lucky to be in a very modern school, you enjoy cinema where a machine teaches you or you listen to lessons broadcast by one of the most wonderful machines. So dependent has man become on machines that a certain writer imagines a time when machines will have acquired a will of their own and become the master of men, doomed once more to slavery.

- b) Write the meaning for the following idioms and use them in sentences if your own. 3M
- i. by hook or by crook
 - ii. from the scratch
 - iii. through thick and thin

- b) Explain briefly Ms Zhou's struggle as a child. 5M

OR

- 20 a) Read the following passage and answer the questions that follow. 5M
- A noble purpose gives meaning to one's own life and is of benefit to others. I realised this while researching on and writing about the life of Jamshedji Tata. What gave one man living in a colonised country the vision to advance it in the community of nations? He not only gave India the power to steel and hydroelectric energy, but also an institution of research. He sent an educationist to Europe and the United States to report on what should be the best model for India. The John Hopkins University in Baltimore was recommended as the model. But Jamshedji Tata made it a point to see that his name was not associated with the university. After his death, his dream came true with the establishment of the Indian

Institute of Science in Bengaluru. It was to be fountain head of science in the decades to come.

There are others too whose purpose in life has made a difference to society. Mother Teresa had a comfortable life at Loretto Convent, Kolkata. On a train journey to Darjeeling, she felt her 'calling' and wanted to give up her comfortable life in the convent and serve the poor and the needy.

After that, she took a three month nursing course and returned to Kolkata. She devoted her time to the sick and the homeless. Touched by her sacrifice, some of her students joined her and work began. Not everyone has such a strong calling. When I asked her how one could be sure of one's calling, she replied, "Deep down in our hearts we know exactly what our calling is, if we are sincere." One's purpose is shaped over a period of time, but every noble purpose is based on a feeling for the suffering of others and our desire for alleviating that condition.

1. Bring out the unique character traits of Jamshedji Tata?
2. Why did he send an educationist to Europe and the USA?
3. Mention two facts about Indian Institute of Science.
4. How did Mother Teresa start working for the poverty stricken people?
5. What was the first step Mother Teresa took?

b) Making mobile screens for Motorola was the turning point for Ms Zhou. Explain. 5M
