

17	Explain the mechanism of SN1 and SN2 Reactions. [10M]	4	L2
	OR		
18	A. Explain the conformational analysis of n-Butane. [5M] B. Explain the Synthesis of Aspirin and Mention the therapeutic applications. [5M]	4	L2
19	Explain about the molecular vibrations in IR spectroscopy. [10M]	5	L2
	OR		
20	(a) Explain about the Transitions involved in UV spectroscopy. [5M] (b) Write a note on MRI? [5M]	5	L2
